

MAINTENANCE CHECK

- Always check for foreign materials & build up inside the guides. Clean regularly to prevent them accumulating and become an obstruction preventing smooth operation of the door.
- Clean the curtain with a cloth and water. Avoid using chemicals while cleaning as this can cause damage to Roller Shutters finish coat.
- Frequently examine all chains for signs of wear. Do not use if damage is found.

- Arco QLD Pty recommend servicing the roller shutters on a regular basis:
 - a. For Low usage 12 months
 - b. For high usage 6 months

- This must be performed by a recommend service technician:
(Charges will apply if out of warranty)
